

PRODUCT FEATURES

Manutec Garden & Vegetable Special is an all purpose fertiliser providing all the essential nutrients, including Trace Elements, that will increase root and leaf growth and encourage bigger yields of crops and flowers. The added Soil wetter granules will improve water holding capacity of your garden soils.

This is a chloride free high analysis fertiliser formulated using quality sulphate based materials.

CAUTION: Avoid using on newly planted seedlings in soils and pots. Use diluted solutions of Manutec Soluble Fertilisers or slow release fertiliser until they establish.

ANALYSIS

ANALYSIS	%W/W
Nitrogen (N) as ammonium	10.90%
Nitrogen (N) as nitrate	1.40%
Total Nitrogen (N)	12.30%
Phosphorus (P) as water soluble	1.50%
Phosphorus (P) as citrate soluble	0.50%
Total Phosphorus (P)	2.00%
Total Potassium (K)	10.70%
Sulphur (S) as sulphate	8.50%
Magnesium (Mg) as sulphate	0.92%
Manganese (Mn) as sulphate	0.10%
Iron (Fe) as Ferrous sulphate	0.08%
Copper (Cu) as Copper sulphate	0.04%
Zinc (Zn) as Zinc sulphate	0.04%
Boron (B) as borate	0.02%
Contains Soil Wetter Granules	12%
Nitrogen to phosphorus (N : P) ratio is	6 : 1

Available in:

4kg bags - 4 per carton

Code: MBP0853

DIRECTIONS FOR USE

Seedlings: When planting, apply at a rate of 75grams (approx. one adult handful) per square metre. Use as a base dressing, apply fertiliser evenly and water in well.

Vegetables & annual flowers: Apply at a rate of 150grams (approx two adult handfuls) per square metre of growing soil. It can be applied either as a side dressing or by scratching into the top soil prior to planting. Applications can be made monthly during growing season. Mix into top soils and water well.

Established trees & Shrubs: Apply in early Spring and early Autumn at a rate of 150grams (approx. two adult handfuls) per square metre of soil around the 'dripline' of the plant. Spread evenly over the soil, no closer than 20cm from the trunk. Lightly scratch into the top soil and water in well.
