4kg bags - 4 per carton

Code: MBP0854

Barcode: 9312462004221

## PRODUCT FEATURES

Manutec Azalea & Camellia Special is a complete fertiliser that supplies all the essential nutrients, including Trace Elements, required by plants with fibrous, shallow roots.

The added Soluble Sulphur will help to maintain acidic pH required for these acid loving plants.

This is a chloride free high analysis fertiliser formulated using quality sulphate based materials and does not accumulate salts when used in container pots.

## ANALYSIS

ANALYSIS	%W/W
Nitrogen (N) as ammonium	8.20%
Nitrogen (N) as nitrate	1.00%
<b>Total Nitrogen (N)</b>	<b>9.20%</b>
Phosphorus (P) as water soluble	1.50%
Phosphorus (P) as citrate soluble	0.50%
<b>Total Phosphorus (P)</b>	<b>2.00%</b>
<b>Total Potassium (K)</b>	<b>8.20%</b>
Sulphur (S) as sulphate	16.20%
Magnesium (Mg) as sulphate	2.00%
Manganese (Mn) as sulphate	0.04%
Iron (Fe) as Ferrous sulphate	0.03%
Copper (Cu) as Copper sulphate	0.02%
Zinc (Zn) as Zinc sulphate	0.02%
Boron (B) as borate	0.01%
 <b>Contains Soil Wetter Granules</b>	 <b>10%</b>
<b>Nitrogen to phosphorus (N : P) ratio</b>	<b>5 : 1</b>

## DIRECTIONS FOR USE

**Camellias:** Apply early Spring immediately after flowering and again in late Spring.

**Azaleas/Rhododendrons/Daphnes etc:** Apply at the end of flowering period, before new growth appears and again 2 to 3 months later. Spread at the rate of 70g (approx. 1 adult handful) to each square metre of soil and around the roots of the plant, but no closer than 20cm from the trunk of the plant. Mix with top soil & water in well immediately.

**Container Plants:** require a lot of water. In the Summer months, give plants up to three deep soakings a week in preference to light waterings. In Winter, water (deep soak) every 1 to 2 weeks.

**Application rates:** An average 30cm pot requires 14g (4 measures of a teaspoon) with applications increasing to 35g (approx. half an adult handful) in 60cm pots. Spread the fertiliser evenly over the soil, not too close to the trunk. Lightly mix in to top soil and water in immediately.
