

Available in:

1kg bottles

Code: MTO2250

Barcode: 9312462225060

PRODUCT FEATURES

Depending on variety and climate, Palms have relatively steady growth with visible Spring 'spurts'. Although many potted varieties are sensitive to over-feeding, other larger outdoor varieties require more regular feeding to maintain vigour. Manutec Slow Release Palm Fertiliser is a blend of quality nutrients that are made available to the plant over a 3 -6 month period. Ideal for use on both sensitive and fast growing varieties when applied as directed. Features a High Nitrogen content to sustain lush growth; as well as added Calcium and Potassium to enhance plant vigour & resistance to pests and disease. Organic nutrients derived from Fish, Seaweed & Humic Acid will also benefit plant health & soil condition.

ANALYSIS

ANALYSIS	%W/W
Nitrogen (N) as slow release	3.50
Nitrogen (N) as coated Urea	7.00
Nitrogen (N) as Organic	0.50
TOTAL NITROGEN (N)	11.00
Phosphorus (P) as citrate soluble	1.10
Phosphorus (P) as water soluble	0.90
TOTAL PHOSPHORUS (P)	2.00
Potassium (K) as Sulphate	7.00
TOTAL POTASSIUM (K)	8.00
Manganese (Mn) as Organic	1.20
Calcium(Ca) as Phosphate	2.50
Added Organic content (Humic Acid, Fish, Seaweed, Crab Shell)	5.00
Nitrogen to Phosphorus (N:P) ratio is 5:1	

DIRECTIONS FOR USE

For Established Outdoor Palms:

Sprinkle at the rate as recommended below. Spread evenly around the base of Palm, approx. 15 -30cm from centre (15cm for 1-2 year old Palms, 30cm for mature Palms). Mix with top soil and water in well.

In Warmer Climates (Northern States): High growth period (prior to Spring) 50g per 1-2 year old Palm; 70g per well established Palm. Repeat these applications (at half measure) in Dec./Jan. and prior to Autumn.

In Cooler Climates (Southern States): High growth period (prior to Spring) 30g per 1-2 year old Palm; 50g per well established Palm. Repeat these applications (at full measure) prior to Autumn.

For Potted Palms: Sprinkle 30g around the plant (halfway between the stem and perimeter of pot). Mix with top soil and water in well. Apply prior to Spring and repeat prior to Autumn.
