

# FACT SHEET

## GRANULAR FERTILISER

### HOME GROWN VEGETABLES

## PRODUCT FEATURES

This premium blend of all the major nutrients is made slow release by the use of slow release raw materials in its granulation. Nutrients will be released steadily over a 60 - 90 day period, *providing safe feeding with optimum growth*. A perfect blend to suit both Summer and Winter crops.

Organic nutrients have been included with a unique blend of *Fish Meal, Crab Shell and Pure Seaweed*. Humic Acid is also added. It benefits in helping plants to absorb available nutrients and increases the soils ability to retain moisture and improve aeration.

## ANALYSIS

### ANALYSIS

### %W/W

Nitrogen (N) as slow release Urea Formaldehyde	3.20
Nitrogen (N) as coated Urea	6.50
Nitrogen (N) as Organic	0.30
TOTAL NITROGEN (N)	10.00
Phosphorus (P) as citrate soluble	1.10
Phosphorus (P) as water soluble	0.90
TOTAL PHOSPHORUS (P)	2.00
Potassium (K) as Sulphate	4.00
TOTAL POTASSIUM (K)	4.00
Manganese (Mn) as Organic	1.20
Calcium(Ca) as Phosphate	2.50
Added Organic content (Humic Acid, Fish, Seaweed, Crab Shell)	30.00

Nitrogen to Phosphorus (N:P) ratio is 5:1

## DIRECTIONS FOR USE

### Seedlings:

When planting, apply at a rate of 50g per each square metre of top soil. Measure using the container lid (as indicated in the diagram on the bottle). Use as a base dressing, apply fertiliser evenly and water in well.

### Vegetables and annual flowers:

Apply at a rate of 100g per each square metre of top soil. Measure using the container lid (as indicated in the diagram on the bottle). It can be applied either as a side dressing or by scratching into the top soil. Applications can be made every 6-8 weeks during growing season. Water well before and after each application.

Available in:

1kg bottles
