

## PRODUCT FEATURES

This premium blend of all the major nutrients is made using high quality slow release materials during granulation. Nutrients will be released steadily over a 90 day period, providing *safe feeding with optimum growth*.

High Nitrogen in this product helps plants to quickly establish healthy green foliage. Added Calcium and higher Potassium levels increases plant resistance to blossom end rot, promoting healthy and tasty fruits.

## ANALYSIS

### ANALYSIS

### %W/W

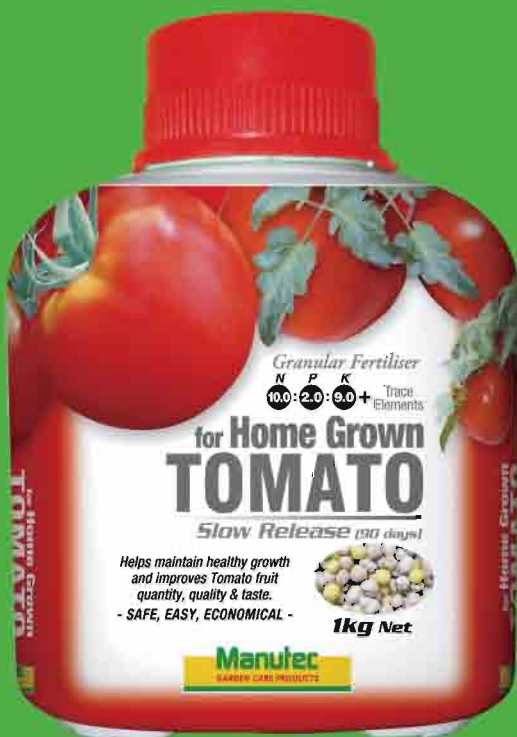

Nitrogen (N) as slow release Urea Formaldehyde	10.00
<b>TOTAL NITROGEN (N)</b>	<b>10.00</b>
Phosphorus (P) as citrate soluble	1.10
Phosphorus (P) as water soluble	0.90
<b>TOTAL PHOSPHORUS (P)</b>	<b>2.00</b>
Potassium (K) as Sulphate	3.00
Potassium (K) as Silicate	6.00
<b>TOTAL POTASSIUM (K)</b>	<b>9.00</b>
Total Magnesium (Mg)	1.50
Total Calcium (Ca)	2.50
Added Trace Elements	2.00
<b>Ratio of Nitrogen to Phosphorus is 5:1</b>	

## DIRECTIONS FOR USE

Fertilise when Tomato plants are established and about 15cm high.

**For Pots:** Sprinkle 30g around plant, measure using the container lid (as indicated in the diagram on the bottle). Spread evenly half way between the stem and perimeter of pot. Scratch into top soil and water in well.

**For Soil Beds:** Sprinkle at a rate of 100g per each square metre of top soil, measure using the container lid (as indicated in the diagram on the bottle). Scratch into top 5cm of soil. Applications can be made every 6-8 weeks during growing season. Water well before and after each application.

Available in:

1kg bottles
