DIRECTIONS FOR USE

Apply Manutec Rose Fertiliser in early Spring after new growth has started and again in mid to late Summer to assist Autumn blooms.

For young to medium bushes: Apply 100grams (approximately two adult handfuls) per square metre of soil.

For larger, more established bushes: Apply 200grams (approximately four adult handfuls) per square metre of soil. Spread evenly over the soil. Avoid applying closer than 30cm from the trunk.
