

PRODUCT FEATURES

Manutec Rose Special is a complete balanced compound fertiliser that supplies the essential nutrients, including Trace Elements, specifically required for vigorous, healthy growth and quality blooms. It has added Blood & Bone, Iron, Potassium and Trace Elements which will encourage better growth and enhance the colour and size of blooms.

This is a chloride free, high analysis fertiliser formulated using quality sulphate based materials.

CAUTION: Avoid using on newly planted roses in soils and pots. We recommend using Manutec Rose Food - controlled release on potted rose bushes and Manutec Rose Planting Tablets when planting new roses. Once the plants are established you can start using this special fertiliser for both soil and container growth plants.

ANALYSIS

ANALYSIS	%W/W
Nitrogen (N) as organic	0.80
Nitrogen (N) as ammonium	8.50
Nitrogen (N) as nitrate	1.20
TOTAL NITROGEN (N)	10.50
Phosphorus (P) as water soluble	1.50
Phosphorus (P) as citrate soluble	0.50
TOTAL PHOSPHORUS (P)	2.00
TOTAL POTASSIUM (K) as sulphate	13.00
Calcium (Ca) as blood & bone	1.00
Magnesium (Mg) as sulphate	1.00
Sulphur (S) as sulphates	6.43
Iron (Fe) as sulphate	1.13
Copper (Cu) as oxide	0.041
Manganese (Mn) as sulphate	0.10
Zinc (Zn) as sulphate	0.046
Boron (B) as borate	0.015
Nitrogen to phosphorus (N : P) ratio is 5.25 : 1	

Available in:

4kg bags - 4 per carton

Code: MBP0851

Barcode: 9312462004115

DIRECTIONS FOR USE

For young to medium bushes: Apply 70 grams (approximately one adult handful) per square metre of soil.

For larger, more established bushes: Apply 200 grams (approximately three adult handfuls) per square metre of soil. Spread evenly over the soil. Avoid applying closer than 30cm from the trunk. Water in well immediately after application.
