

PRODUCT FEATURES

Urea is a high Nitrogen soluble fertiliser which can simply be mixed with water for easy application. Urea gives a quick boost of Nitrogen, required by plants with a high proportion of green leaves. Nitrogen stimulates lush green leaf growth in outdoor plants, leaf crop vegetables and lawns. Plants lacking in Nitrogen have stunted growth with pale green or yellow leaves.

ANALYSIS

ANALYSIS	%W/W
NITROGEN (N) as Urea	46.0%
Maximum Biuret	1.5%

DIRECTIONS FOR USE

Outdoor Plants & Vegetables

IN DRY FORM: Apply 10 grams (approximately 2 heaped teaspoons) evenly over each square metre of soil, or along 1 metre of row. Water in well immediately after applying.

IN LIQUID FORM: Dissolve 20 grams (approximately 4 heaped teaspoons) in 4 litres of water and apply evenly over 2 square metres of soil, or 2 metres of row.

REPEAT APPLICATION 2 TO 3 TIMES OVER GROWING PERIOD.

Note: Urea is not recommended for applications over foliage.

Lawns

IN DRY FORM: Apply 10 grams (approximately 2 heaped teaspoons) evenly over each square metre of lawn. Water in well immediately after applying.

USING A MANUTEC HOSE-ON SPRAYER: Dissolve 100 grams (approximately 6 heaped tablespoons) in 2 litres of water. Spray evenly over 10 square metres.

WATERING CAN: Dissolve 40 grams (approximately 8 heaped teaspoons) in 8 litres of water. Apply evenly over 4 square metres. Repeat applications every 6 to 8 weeks.

Available in:

2kg bags

Code: MBP0200
